*About CARF's standards

CARF's standards are field-driven. Working with consumers, providers, and funders, CARF has created and maintained international consensus standards to promote quality, value, and optimal outcomes of services. By conducting a comprehensive self-evaluation against the standards, an organization going through the accreditation process has the opportunity to make improvements to its business practices, care processes, and service provision. The ultimate goals are to enhance lives of people being served, improve staff experience, and benefit the community at large.

**CARF's Aging Services programs:

- Adult Day Services
- Assisted Living (Retirement Homes)
- Person-Centred Long-Term Care Communities (Nursing Homes)
- Home and Community Services (Home Care)
- Case Management
- Independent Senior Living
- Networks
- Personal Supports Services
